**Email id - [internationalnursingconf@gmail.com](mailto:internationalnursingconf@gmail.com)**

# Dear Friends,

## **Chairperson's Message**

It is a matter of immense pleasure and privilege to invite you to the 4th International Nursing Conference on recent advances in nursing education and research, to be held on Friday, 7th Oct 2022.

*Prof. Urmila D. Bhardwaj*

Institute of Education and Research (IEAR) has taken the initiative to create a community of nursing professionals worldwide. The role of nursing is the backbone of the health and well-being of nations as was demonstrated during the COVID-19 pandemic. Globally, nursing professionals have been at the forefront of fighting the pandemic and have demonstrated immense compassion and courage. We have also experienced the repercussions through increasing rates of PTSD, burnout and exhaustion.

As communities and nations recover from the after-effects of COVID-19, nursing professionals will have to play a major role in what comes after. Nursing professionals constitute 60% of the health professional workforce globally, however, WHO estimates that 9 Millions additional nurses and midwives will be needed by the year 2030. Investment in nursing education is more important now than ever.

We hope that you join us at the conference in-person in New Delhi and take this opportunity to learn, progress in your profession and connect with others in your community.

We would be delighted to see you and feel free to reach out to our team for any queries..

**With warm regards**

Yours sincerely

**Prof. Urmila D. Bhardwaj**

**Dean/Principal, School of Nursing Science and Research,  
Sharda University, Greater Noida**

# ORGANISING COMMITTEE

## CHAIRMAN

Institute of Education and Research (IEAR)

---

### International Advisory Board

Conflict Management Strategies for Nurse Managers  
Building nurse resilience  
Strategies for over caring Language  
Barriers in healthcare

## About Delhi

It is difficult of some up Delhi but still we will try to do it as whenever to you come and see its beauty, it has something or the other to keep you mesmerize with its majestic beauty of liveness of the city, that's what Delhi is.

Delhi, the capital of India, is situated in northern India and stands on the west bank of Yamuna River bounded by Uttar Pradesh and on the north, west and south by Haryana. Delhi is spread over an area of 1483 sq. Kilometers, 216 meters above sea level and has a population of around 14 million. Delhi has the advantage of its cosmopolitan society where there are people from every nook and corner of India. This makes the city very multi linguistic and multi cultured. Being the capital of the world's largest democracy, Delhi has embassies of more than 160 countries.

Endless topics can be discussed on Delhi. A place to live, love and laugh and gather memories.

Delhi Metro has come as a much awaited gift for the people of Delhi, which has indeed changed the transport facility of the city. Delhi has seen major infrastructural changes over the past few years amidst increased foreign investment and economic growth.

Delhi has always been a vibrant city with a cosmopolitan culture which embraces itself to every aspect of life. Auditoriums in Delhi host cultural and

recreational concerts all through the year, which is seen with great interest by the people of Delhi. Live concert and dramas in Delhi take place on a regular basis, which adds to the entertainment aspect of the city. With the development of extravagant malls and shopping complexes in Delhi, you have the option to shop and dine under the ambience of a single roof. In addition to the modern lifestyle malls and shopping centers in Delhi, you have the option of enjoying the traditional taste of shopping in Delhi in the by lanes of old markets like Karol Bagh and Chandni Chowk.

Entertainment without good food? Well, this does not suit the lifestyle of Delhi-ites. In addition to the famous high class restaurants and cafes, Delhi also offers lane side eateries which are very famous among the people of Delhi. Delhi's landscape is getting populated with ultramodern multiplexes, shopping and specialty malls. This has certainly helped in transforming Delhi into a world class city.

Well, it is also becoming the major Information Technology destination of India. According to reports, Delhi and NCR accounted for maximum software export from India. IT and ITES have found their place in Delhi and NCR, where the infrastructure provides a conducive environment to make the industry flourish like never before. All major multinationals like IBM, Microsoft, Google, Sony, etc. Have their offices in Delhi and NCR.

Delhi is the symbol of old and new India, an India which is growing rapidly and catching up with the global business demand.
